

Runge Elementary

Turnaround Plan (TAP) Community Input and Approval Process

At Runge ISD, we are committed to making school a place where all students can thrive. Recent TEA accountability ratings show Runge Elementary is rated as an F Campus for the third consecutive year. To address this, we are required by the Texas Education Agency to create and implement comprehensive Turnaround Plan (TAP). This is a necessary process to ensure our school meets state standards while also preserving and strengthening what makes us Runge ISD.

This work is demanding and urgent, but we are confident we can do it together. Our community's deep love for our public school is one of our greatest strengths. We believe that by working in partnership with our families, students, and educators, we can have the tough conversations, find innovative solutions and achieve accelerated growth.
